

Water Soluble

Ultrasound Gel & Lotion

- Designed for use in diagnostic imaging, therapeutic ultrasound and other external procedures requiring a viscous, yet easy-to-use, conductive medium.
- Thick, no-slip formula eliminates air between the transducer and skin offering exceptional coupling efficiency for more effective treatment or diagnosis.
- Formulated to be acoustically correct for the broad range of frequencies used in medical ultrasound applications.
- Non-irritating hypoallergenic formula will not sting or chafe patient tissue.
- Salt and alcohol-free.
- Water soluble formula prevents damage to equipment or clothing.

Item #	Description
